

# Nature walk

by Cara Quilty

Yesterday I went on a long nature walk with my mam dad and brother. I saw pretty flowers like bluebells. We also saw some beautiful white and yellow flowers. I also smelled freshly cut grass. I saw a cow in the field . I heard a river flowing so I walked a little further and saw a really nice river it had boats in it small ones and big ones and my mam told me it is the river Suir. I heard a stream too and across the river was more houses. I saw daisys in the field and there were more yellow flowers in the field. There were a few more people going on a walk too but we crossed the road so we were two metres apart. When I was down by the river I saw the passage east ferry . We went on that walk for about forty minutes and on our way back we saw more cows they were all mooing at each other I had a very nice time on that walk. I hope to do it again very soon.
