

Polish history is complicated because of its geographical position between Germany and Russia. Because of this Polish history has periods of great prosperity but also plenty of conflicts with neighbours which resulted in Poland disappearing from the maps for 123 years. Poland regained its independence in 1918 to lose it again for 6 years during World War 2. After the War Poland was taken over by communists and became fully independent again in 1989. Thanks to Solidarity movement. In 2004 Poland joined the European Union.

Among the biggest tourist spots is the city of Krakow with its many attractions. The most popular ones are salt mines in Wieliczka, Wawel King's Castle, Mariacka Cathedral and Dragons Cave. A very popular region is Warmia i Mazury called a Region of 1000 lakes. Poland has a lot of big forests, the biggest and oldest is called Puszcza Bialowieska, where among plenty species of animals lives last of European bison (żubr). FREE POLISH LESSON!
Polish mountains of Tatry and Bieszczady are very popular with tourists. This was a long Polish lesson. I picked Poland because it is the country of my ancestors. I love visiting Poland.

The End
