

Week 20th – 24th April

Fifth Class

Maths

Master Your Maths Week 25 & Friday Test

Keep revising your tables – use [topmarks.co.uk](https://www.topmarks.co.uk), practice them with your brothers/sisters, or test yourself

Continuing with the topic 'Time': You just need to remember that 1 hour is only 60 minutes. When you're adding, taking away and multiplying keep the hours and minutes separate.

It's always a good idea to have an analogue watch or clock face to look at and to practise reading the time from this regularly.

Time sums – see separate link attached, do them in your copy/on a page.

You can continue to make your own time sums at home. See how long some of your favourite films are in hours and minutes and change them to just minutes, add up how long it would take you to watch 3 episodes of your favourite show, write your own timetable of what you did for the day, figure out how long you spent doing different activities or how long you were awake for, make a timetable for the following day and try to stick to it, swap the times on your timetable from 12hr to 24hr clock, time how long it takes you to do different activities at home

English

Read at Home pg. 86 – 90

Spellings:(-ify) :Learn these through the week, look up any meanings you're unsure of and put each word into a sentence.

classify ,terrify, horrify, glorify, solidify, personify, identify, simplify, magnify, mystify, specify, justify, clarify

Keep reading books that you like at home

Writing: Letters and postcards

This is linked with your Geography (outlined below)

Imagine that you are a Latvian person working in Ireland today. From what you know about Latvia write a letter to a family member, talking about the things you miss about Latvia. Talk about the differences that you are noticing between Ireland and Latvia.

***See separate link attached. The link will open a template to help you write your letter with the correct layout.**

Recount Writing – Continue to keep a short diary of what you’re doing and thinking during the day and maybe if you hear any news - this will be helpful for your news when we’re back in school and this is such an unusual time it might be interesting to have a recount of it. Who knows- your diary might end up in a museum in years to come or extracts of it in a Fifth Class History book!

An Ghaeilge

<https://duolingo.com/> is a good site.

Play around with the website and do any games/activities that you can.

If you want to listen to/learn more songs as Gaeilge then go to <https://www.youtube.com/user/tglurgan>

SESE

Geography: Latvia

Do some research on the country of Latvia, if you’d like you can do a mini project on it as a country.

Comparing Latvia and Ireland

Use worldbookonline.com to compare Ireland and Latvia and answer the questions:

Go to worldbookonline.com, click into the box with the balloon that says kids under it

Then click on the picture of the world that says compare places

Click countries and then use the arrows to scroll through until you find Ireland and click on it and then Latvia and click on it, then hit the compare now button in the bottom corner.

Questions

1. How many more people live in Ireland than Latvia? (population is how many people live somewhere)
2. What percent (out of 100) people use internet in Latvia?
3. What percent of people use internet in Ireland?
4. How many more people are in Ireland's army (Armed Forces) than Latvia?
5. What is the climate like in Latvia?
6. Can you remember what the difference between weather and climate is from Geography?
7. Name two famous places in Latvia:

Movement/Mindfulness/P.E.

<https://www.gonoodle.com/> and <https://www.youtube.com/user/cosmickidsyoga> are great sites.

Now might be a good time for trying to run your mile. If you run for approximately 5 minutes in one direction, then turn around and run back for 5 minutes, it should be close to a mile and you'll be well within your safe 2km radius of home.

Music

<https://www.classicsforkids.com> is a great interactive site to learn about composers and their music with games to take part in.

Art

Andy Warhol was a very famous American Pop Artist. He created portraits of famous people using repeated images and lots of colour. He also created pieces based on ordinary items like a tin of soup!

If you can, have a look at some of his work online and try to recreate one of his pictures or create your own picture using Andy Warhol's style! We'd love to see your efforts so don't forget to email the pictures!
