

Now you know the main parts of the circle - circumference, diameter, radius & centre

These are the rest of the parts you need to know

An **arc** is a part of the circumference of the circle.

A **sector** is a section of the circle made by a radius, an arc and another radius. Imagine it like a slice of cake or pizza.

A **quadrant** is a quarter of the circle. Quadrant and quarter both start with q, this might help you remember.
