

Week 25th – 29th May

Maths

Master Your Maths Week 30 & Friday Test – The Last Week!

Keep revising your tables – use topmarks.co.uk, practise them with your brothers/sisters, or test yourself

We'll be continuing with revision in maths. This week we're concentrating on short division and a bit of long division, we'll start with just revision of division tables, knowing your tables will make doing the sums much easier! Then we'll do some short division and on Thursday we'll be doing long division – if you are finding long division really difficult and would rather just continue practising your short division that's okay, there'll be a choice to do that instead.

English

Read at Home pg. 109, 110 & 111

Spellings:(-tial) :Learn these through the week, look up any meanings you're unsure of and put each word into a sentence.

Essential, potential, initial, partial, martial, impartial, substantial, confidential, presidential, residential, torrential, spatial, influential, preferential

Do pg. 86 in Grammar 5, just unjumble the letters to make words from the spellings list

Try pg. 88 in Grammar 5, just find where the extra word would fit in and rewrite the sentence – for example in the first one you'd write: The chairs were uncomfortably hard.

Keep reading books that you like at home

Formal/Informal Language – Treasury pg. 76 – Read the top of the page first, A, this is a formal letter so you need to underline the language that is more formal in each of the options

B – Rewrite the sentences in your copy using informal language; you don't need to change them too much for example for 1. You could write – I'd love you to be in our school play in June.

Writing – Writing to socialise – Treasury pg. 77 – Q1 read the text, Q2 write the reply in your copy Q3 write the message in your copy

Gaeilge

Attached are two pages of reading (leitheoireacht): Bronntanais do Mhamo and La Gaofar

They're not difficult. Try to read them aloud and you can answer the questions orally or write them out. Bain triail astu! (give them a go!)

SESE: Science

States of Matter – Everything on Earth is a solid, liquid or gas. Read about what each of these is on the photocopied sheets from Unlocking Science. Fill in the grid on pg. 139.

Worksheet - Label the objects in the worksheet as solid, liquid or gas.

Read about gas pg. 140 and try to fill in the uses for gas, on pg. 141 if you can, try out the dancing raisin experiment you just need a fizzy drink (maybe not coke because it's the same colour as the raisins), a glass and some raisins, write what happens.

Movement/Mindfulness/P.E.

Leg Lift Challenge- Watch out for a new participant!!

Use this link for the whole challenge: <https://www.youtube.com/watch?v=Q9cnrvL4Apc>

Try and go for as long as you can through the song.

*try not to let your feet touch the ground at any stage.

<https://www.gonoodle.com/> and <https://www.youtube.com/user/cosmickidsyoga> are great sites.

Now might be a good time for trying to run your mile. If you run for approximately 5 minutes in one direction, then turn around and run back for 5 minutes, it should be close to a mile and you'll be well within your safe 5km radius of home.

Music

<https://www.youtube.com/watch?v=ta-sWn3oAQY>

This video has examples of the traditional Irish instruments that you researched last week and a few others. Have a listen to what each one sounds like; you don't need to worry about all of the facts that come up with them, just listen to the different sounds.

Which instrument do you like the sound of the most?

Which instrument do you like the sound of the least?

If you were to learn to play one Irish instrument, which one would you choose and why?

Art

Attached: This week we are looking forward to some nice summer activities that we'll be able to do when lockdown is over, things like visiting the beach or the park, going for ice-cream, playing with friends, going swimming etc. In the sunglasses template draw two nice bright colourful things that

you look forward to at summer time, then on another page draw a picture of yourself, cut out the glasses and stick them on. Attached are some examples, it looks quite cool if you do yourself in pencil and your glasses in colour or if you'd rather do it all in colour that will still look good.
