Subject Specific Tasks:

Literacy

This week we are going to continue to explore **procedural writing**. We are going to continue looking at explaining how to do things rather than making things! Remember, your instructions need to be simple and very clear.

- ❖ **Day One:** Revision of procedural writing & interview activity.
- ❖ **Day Two:** Reading & rewriting activity - recycling glass.
- ❖ **Day Three:** Frozen hair tutorial & evaluation activity.
- ❖ **Day Four:** Drawing activities.
- ❖ **Day Four:** Time to write - How to wash/dry/style your hair.

As well as exploring procedural writing, we are going to be exploring **visualisation** again this week. This is a very important reading comprehension strategy, it allows us to explore more than the words in the text, visualising allows us to create pictures in our minds to go with the words, it helps us immerse ourselves into the world of the book and gets us into the mind of the characters. This week we will begin by reading a short piece of information, and drawing what we imagine based on the words in the text. It is really important to pay attention to the little details ☺

Numeracy

This week we are going to be exploring **3D Shapes**, we will be exploring their properties, their nets and constructing 3D shapes. All of the tasks and information is laid out for you in the PDF. We have included some very hands on practical tasks for you to enjoy!
