

Monday 8th June – Friday 12th June

THEME: WATER SAFETY

MATHS:

Tables: Revision of 11s and 12s multiplying and dividing.

Be a Tables Champion at home!

TABLE TOPPERS: The Seventy Fivers Page 75.

For those of you who have already completed this page I am attaching another tables activity sheet for extra revision of all tables.

Don't worry if you can't print this sheet, just copy down the questions.

MENTAL MATHS: Week 32. Pages: 95, 96 and 97.

I will put up the answers on Aladdin each day

TOPIC: CAPACITY

I am attaching three activity pages with the answer sheets so you can check your answers when you are finished. You don't need to print out these pages, just copy down the numbers in your copies.

The following website has a lot of free maths activities you can do on line! A great way to practise your multiplication / division / time / fractions etc.!

<https://ie.ixl.com/math/class-4>

ENGLISH:

I know a lot of you are fans of J.K. Rowling so I thought you might like to know that she has a book on line that she wrote a long time ago but never published! It is called The Ickabog and she is posting a chapter or two every weekday between 26th May and 10th July on The Ickabog Website . All the chapters are there for you to read up as far as chapter 19. My daughter, Róisín is reading it and thinks it's very good!

Happy reading!

J.K. Rowling also has an illustration competition for you to enter if you would like to and you never know your illustration might be included in the finished book when it is published in November!

POWERPOINT 1: Sun Sea and Beach Safety

**There is a quiz at the end of this powerpoint.
Someone at home may be able to give it to you to see how much you have learned about water safety!**

POWERPOINT 2: PAWS (Primary Aquatics Water Safety)

Another very good powerpoint for you to study.

Bobby's Worry Letter:

Please read this letter and write a letter back to Bobby explaining the dangers involved in swimming in a pond and how he needs to tell his friend why it's not a good idea.

ALPHABOX: Draw out 26 squares in your copy and fill in each box with as many seaside related words or seaside towns as you can think of!

e.g. a = Ardmore, Annestown

b = beach, bathing

c = cliffs, canoes

SPELLINGS: Unit 31. Do as many as you can and be a spellings champion on Friday!

Log into <https://ie.ixl.com/ela/class-4>

And complete some activities on it.

D.E.A.R.: (Drop Everything and Read).

Aim for at least 15 minutes of silent reading every day.

INTERESTING WORD LIST: Keep a list of new or interesting words you come across in your reading.

Start or continue your School Closure Diary! Again you can email me some of your diary if you would like to share your thoughts and accounts of your daily activities.

READY STEADY WRITE: As you have this writing book at home now you may pick and choose pages to do to practise your writing skills.

There are some free online books available at:

<https://www.oxfordowl.co.uk/for-home/find-a-book/library-page/>

GAEILGE:

LITRIÚ: Ar Scoil

scoil = school

mála scoile = school bag

clog = clock

bosca lóin = lunch box

bosca bruscair = bin

clár bán = white board

bord = table

cathaoir = chair

ráille = rail

leabhar = book

cóipleabhar = copy

peann = pen

Do as many as you can and test yourself on Friday. I am attaching three activity pages based on these spellings. Again, don't worry about printing these pages, just do the activities orally or draw/ write them out if you have time.

Exercise E: faoin = under so you are being asked to draw a school bag under the table and a pen under the chair!

GEOGRAPHY:

THE SEASHORE- A HABITAT

I am attaching two activity sheets for you to read and fill in the answers (if you are able to print off the pages). If not please read the pages and write your answers into your copies.

SCIENCE:

If you enjoyed doing one of the experiments last week you might like to try another one this week!

Click on the following link to find lots of fun Science experiments. www.sciencekids.co.nz/experiments.html

Pick one you find interesting (you can do more if you want) and try it out. Take some photos if you can and then write up your experiment using the following headings if you can:

- a) Title
- b) Materials (What you needed)
- c) Purpose (I wonder what will happen)
- d) Procedure (method)
- e) Results
- f) Conclusion (I learned)

Include an illustration if you can't take photos.

Have fun!!

ART:

The Aztec civilisation lasted from 1300 AD to 1521 AD. They built Mexico City and made human sacrifices to their sun god. This week I would like you to try drawing and colouring an Aztec Sun Stone. The Aztec

Sun Stone was an enormous calendar that was 12 feet high, 4 feet thick and weighed 24,000 tons! The Aztec calendar was different from our calendar today because it had 18 months each containing 18 days in a year.

You can use whatever medium you prefer to colour it. It looks fabulous with oil pastels if you have some. Otherwise markers, paint or crayons are fine. Have a look here and see if you can create your own. You should create half of your sun using wavy or curved lines and the other half using straight lines. Then colour half of the sun with warm colours such as red, yellow orange and the other half with cool colours such as blue, green and purple.

You will see examples here:

greenbayartroom.blogspot.com/2008/09/4th-grade-aztec-suns.html

As our theme for this week is Water Safety you might like to design a poster explaining the dangers around water or what each flag represents.

You might also like to draw a seaside scene!

RELIGION:

Keep up your daily prayers!

**Try and do one kind deed every day for your Mam,
Dad or someone else in your family or
neighbourhood.**
